

Carnegie Science Center Camps At Upper St. Clair

No need to travel to the city...Carnegie Science Center Programs are available in USC through the Recreation Department! Explore the world of science this summer with the fabulous staff of the Carnegie Science Center. Participants can choose morning or afternoon sessions, or double the fun and come for a full day of exciting learning activities.

General Information:

All camps are for students ages 6 – 8 years old.

Morning session is from 9:00 a.m. – 12:00 p.m.
Afternoon session is from 1:00 p.m. – 4:00 p.m.

Classes will be held at Upper St. Clair High School Nutrition Center or as otherwise posted.

Campers attending both morning and afternoon sessions will be supervised during lunch at no additional charge. These campers should bring a bag lunch each day.

Fee: . . . \$125.00 per session.

Please register directly with the Carnegie Science Center on their Website or call 412.237.1637.

July 6 - 10

A.M. Session: Junior Scientist
Become a different scientist each day as you learn about chemistry, physics, astronomy and more.

P.M. Session: Junior Wizard Camp

Is it magic or is it science? Become a real-life wizard when you dissect owl pellets, make shrinky dinks, and make some slime to take home.

July 13 – 17

A.M. Session: Wild Weather Camp
Throw on your raincoat and learn all about thunderstorms, snow squalls, sun showers, and more! Make your own rain gauge and create rainbows.

P.M. Session: Super Structures

Create a model city complete with bridges, tunnels and skyscrapers as you learn about the amazing feats of engineering that allow us to build longer bridges and taller buildings.

July 20 – 24

A.M. Session: Weird Science
Join us as we experiment with dry ice, liquid nitrogen, bubbles and more. Check out the weird world of science.

P.M. Session: Science Detectives

Search for evidence and gather clues as we discover how science can be used to help solve a mystery.

July 27 – 31

A.M. Session: Space Camp
Comets, planets and stars, oh my! Blast off and explore the universe and learn how astronauts live in space.

P.M. Session: Invention Camp

Learn about some weird and wacky inventions and then design some of your own.
